

India Green

#VegEatArea

Who says vegetarian food is boring?

Here at India Green, we serve you tasty, unique and exciting vegetarian dishes from India and across the World.

India Green, is **Green** in its thinking.

Close to nature and Mother Earth.

Our core philosophy is to promote vegetarianism and to glorify its importance in the Indian society. We would keep surprising you with our seasonal offerings to match local produce.

Each dish created here has been perfected with science and art through research and numerous trials. We do not use colours or add ingredients like MSG to any of our dishes. We would come very natural and green to you. As Mother Earth wanted it to be, vibrant in its natural colour.

Everything made here is not only fresh but made with LOVE. We care for you. Once you are in India Green, its our belief, you will become its permanent patron. Welcome to the India Green family!
